

**INFORMATION TO OFFERORS OR QUOTERS
SECTION A - COVER SHEET**

*Form Approved
OMB No. 9000-0002
Expires Oct 31, 2004*

The public reporting burden for this collection of information is estimated to average 35 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (9000-0002), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person will be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS. RETURN COMPLETED FORM TO THE ADDRESS IN BLOCK 4 BELOW.

SECTION B

For all shipments of packaged materiel to the government, which includes either depot (DLA-direct) or DVD (customer-direct) shipments, both DoD linear and 2-D bar code markings are required on military shipping labels in accordance with MIL-STD-129, revision P, dated December 15, 2002. 2-D bar coding shall be in accordance with ISO/IEC 15438, ISO/IEC 15434 (ANSI MH10.8.3) and DoD 4500.9-R. MSL linear (code 3 of 9 or code 39) bar coding shall be in accordance with ISO/IEC 16388. MSL label stock quality shall meet MIL-PRF-61002. MSL bar code print quality shall meet ANSI MH10.8-2000 or ANSI X3.182-1990 (R2000) for applicable 2-D and/or linear bar codes. All DVD shipments shall meet additional linear bar coding requirements in DLAD 52.211-9008. When the contract/order omits any data element required to be bar-coded, the field shall be zero-filled. These requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P. If there are inconsistencies between the schedule and MIL-STD-129P, the schedule takes precedence.

SECTION D

D11C03 52.211-9010 MILITARY SHIPPING LABEL (MSL)
REQUIREMENTS - MIL-STD-129P (MAR 2004) DLAD

(a) MIL-STD-129, Revision P, dated December 15, 2002, establishes the requirement for Contractors that ship packaged material to the Government to provide both linear and two-dimensional (2-D) bar coding on military shipping labels (MSLs) (but see exceptions in paragraph (d)). The new requirements apply to all shipments, which includes either depot (DLA-Direct) or DVD (Customer-Direct) shipments. Linear (Code 3 of 9 or Code 39) bar codes continue to be required on interior packages (unit and intermediate packages)

for the National Stock Number (NSN) and, when applicable, the serial number; and on shipping containers and palletized unit loads for the NSN, Contractor and Government Entity (CAGE) Code, contract number and, when applicable, the serial number.

The new requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P.

(b) The new MSL replaces former DD Form 1387 and is illustrated in Figures 2a and 2b of MIL-STD-129P. The MSL requires Code 3 of 9 or Code 39 linear bar codes for the Transportation Control Number (TCN), piece number and DoDAAC for the ultimate consignee or mark-for address. The 2-D bar code on the MSL must contain the document (requisition) number, NSN, Routing Identifier Code (RIC), Unit of Issue, Quantity, Condition Code, and Unit Price, which are ordinarily included on the DD Form 250 or the DD Form 1348-1A. MIL-STD-129P provides numerous illustrations of what must be bar-coded and the recommended placement of the bar code. When the contract omits any data element required to be bar-coded, the field should be zero-filled.

(c) MIL-STD-129P, sources for conforming labels, and related information are available on the DLA Packaging Web Site at URL: <http://www.dscclia.mil/offices/packaging/specstdslist.html#STDs>.

(d) This clause does not apply to -
(1) Subsistence items procured through full-line food distributors (prime vendors), 'market ready' type items such as fresh milk, ice cream, and other fresh dairy products, fresh bread and other fresh bakery products, and all fresh fruits and vegetables, shipped within the Continental United States (CONUS) to customers within CONUS;

(2) Any item for which ownership remains with the vendor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the vendor into the designated location or issuance from the designated location by vendor personnel (i.e., the vendor is required to stock bins at the customer location and/or issue parts from a vendor controlled parts room); or
(3) Bulk purchases of petroleum, oil and lubricant products delivered by (1) pipeline; or (2) tank car, tanker and tank trailer for which the container has (i) a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (ii) a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (iii) a water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas.

NOTES: In bar code element 1 above, the Document Number consists of a 14-character (15 characters when a suffix is included) alphanumeric code. It may be listed on a contract/award as the Requisition Number, Transportation Control Number (TCN), etc.

In bar code element 2 above, the NSN will appear as a 13-digit code without the dashes.

In bar code element 3 above:

The RIC for each procuring activity is as follows:

S9C - Defense Supply Center Columbus - Construction
S9E - Defense Supply Center Columbus - Electronics
S9F - Defense Energy Support Center
S9G - Defense Supply Center Richmond
S9I - Defense Supply Center Philadelphia - General and Industrial
S9T - Defense Supply Center Philadelphia - Clothing and Textiles
S9M - Defense Supply Center Philadelphia - Medical Materiel
S9P - Defense Supply Center Philadelphia - Perishable Subsistence
S9S - Defense Supply Center Philadelphia - Semi-perishable Subsistence

The appropriate unit of issue (U/I) will appear as a two digit alpha character.

The quantity will appear as a five-position number, including zero fillers on the left.

The above will be followed by an 'A' and eight zeros, (i.e. 'A000000000')

NO SPACES SHALL SEPARATE THE INDIVIDUAL DATA ELEMENTS WITHIN EACH LINE.

() (Vendor Fill-in) (1) Certificate of Concurrent Submission of Disclosure Statement. The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.)

(Vendor Fill-in)

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

() (Vendor Fill-in) (2) Certificate of Previously Submitted Disclosure Statement. The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement:

(Vendor Fill-in)

Name and Address of Cognizant ACO or Federal Official Where Filed:

(Vendor Fill-in)

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

() (Vendor Fill-in) (3) Certificate of Monetary Exemption. The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated

prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

() (Vendor Fill-in) (4) Certificate of Interim Exemption. The offeror hereby certifies that

(i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and

(ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraph (c) (1) or (c) (2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

() (Vendor Fill-in) The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a) (3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

(DEC 2003) DSCC

(c) The telephone number of receiving facsimile equipment
is: A/C 614-692-4275

NOTE 1: When sending a facsimile proposal, the contractor
should program the machine to include his telephone number as
the distant station ID. This information is required to
assist in documenting receipt of the order.

NOTE 2: Reject offers received via the DSCC Internet Bid
Board System (DIBBS). This mode of transmission is not
authorized for large purchase acquisition. If the DIBBS offer

is received outside the Bid Opening Room, the receiver will
immediately hand deliver the offer to the Bid Opening Officer.
The Bid Opening Officer will return ALL DIBBS offers (whether
received in or outside the Bid Opening Room) to the
contractor. The offer will be returned as an attachment to
the letter of rejection. This letter advises that it is
unfair and improper to consider the offer since it would have
a potential competitive advantage over other offerors, e.g.,
there could be more time in which to prepare the offer. FAR
14.301(e)/FAR 15.402(k) stipulate that the solicitation must
specify which electronic commerce method is permitted.

L17C01 52.217-9002 CONDITIONS FOR EVALUATION AND
ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (JUL 2002)
DLAD

(a) The product described in the acquisition identification
description (AID) of this solicitation is that product which
the Government has determined to be acceptable. All Offerors
shall indicate below, or through an alternative means in an
electronic quoting system, whether they are offering an 'exact
product,' an 'alternate product' (which includes a 'previously
reverse-engineered product'), a 'superceding part number,' or
a 'previously-approved product,' and shall furnish the data
required for whichever is applicable. (To determine which
type of product to indicate, Offerors must refer to the
criteria in subparagraphs (b)-(e) of this provision,
respectively.) Any product offered must be either a product
cited in the AID; or be physically, mechanically,
electrically, and functionally interchangeable with a product
cited in the AID, including additional requirements referred
to in the AID, if any.

Exact Product - Applies to CLIN(s):

(Vendor Fill-in)
Alternate/Previously Reverse-Engineered Product - Applies to
CLIN(s):

(Vendor Fill-in)
Superceding Part Number - Applies to CLIN(s):

(Vendor Fill-in)
Previously-Approved Product - Applies to CLIN(s):

(Vendor Fill-in)

(b) 'Exact product.'
(1) 'Exact product' means a product described by the name of
an approved source and its corresponding part number, as
currently cited in the AID; modified (if necessary) to conform
to any additional requirements set forth in the AID; and
manufactured by, or under the direction of, that approved
source. If an Offeror indicates that an 'exact product' is
being offered, the Offeror must meet one of the descriptions
in subparagraphs (i)-(iv) below. (Any Offeror not meeting one
of these descriptions is not considered to be offering 'exact
product,' even though the item may be manufactured in
accordance with the drawings and/or specifications of an
approved source currently cited in the AID.)
(i) An approved source currently cited in the AID offering its
corresponding part number as cited in the AID;
(ii) A dealer/distributor offering the product of an approved
source that meets the description in subparagraph (i) above;
(iii) A manufacturer who (A) produces the offered item under

the direction of an approved source currently cited in the
AID; and (B) has authorization from that approved source to
manufacture the item, identify it as that approved source's
name and part number, and sell the item directly to the
Government. If requested by the Contracting Officer, the
Offeror/Contractor must provide documentation to demonstrate
such authorization.

(iv) A dealer/distributor offering the product of a
manufacturer that meets the description in subparagraph (iii)
above. If requested by the Contracting Officer, the
Offeror/Contractor must provide documentation that
demonstrates such authorization.

(2) When the AID identifies the item being acquired as a
critical safety item (CSI), offers of exact product will be
evaluated in accordance with 52.211-9005.

(c) 'Alternate product.'

(1) The Offeror must indicate that an 'alternate product' is
being offered if the Offeror is any one of the following:

(i) An Offeror who (A) manufactures the item for an approved
source currently cited in the AID; and (B) does not have
authorization from that approved source to manufacture the
item, identify it as the approved source part number, and sell
the item directly to the Government;

(ii) A dealer/distributor offering the product of a
manufacturer that meets the description in subparagraph (i)
above;

(iii) An Offeror of a previously reverse-engineered product
that is not currently cited in the AID; or

(iv) Any other Offeror who does not meet the criteria in
subparagraphs (b)(1), (d), or (e) of this provision.

(2) If an alternate product is offered, the Offeror shall
furnish with its offer legible copies of all drawings,
specifications, or other data necessary to clearly describe
the characteristics and features of the alternate product
being offered. Data submitted shall cover design, materials,
performance, function, interchangeability, inspection and/or
testing criteria, and other characteristics of the offered
product. If the offered product is to be manufactured in
accordance with data the Offeror has obtained from elsewhere
within the Government, the Offeror shall either furnish the
detailed data specified in this paragraph, or supply a
description of the data package in its possession; i.e.,
basic data document and revision, the date the data was
obtained and from whom (Government agency/activity). If the
Offeror does not furnish the detailed data with its offer, the
Contracting Officer will be unable to begin evaluation of the
offered product until such time as the detailed data can be
obtained from the Government agency/activity possessing the
data. If the alternate product is a previously
reverse-engineered product, the Offeror shall provide:
traceability documentation to establish that the offered item
represents the item specified in the AID (i.e., invoice from
an approved source or submission of samples having markings of
an approved source), number of samples that were examined; the
process/logic used; raw data (measurements, lab reports, test
results) used to prepare drawings or specifications for the
offered item; any additional evidence that indicates the
reverse-engineered item will function properly in the end
item; and any evidence that life cycle/reliability
considerations have been analyzed.

(3) In addition, the Offeror may be required to furnish data
describing the 'exact product' cited in the AID. The data
required from the Offeror depends on the level of technical
data describing the exact product, if any, available to the
Government. The possible levels of technical data the
Government may have and the corresponding data submission
requirements for Offerors are identified in subparagraphs
(a)-(d) below. For the item(s) being acquired under this
solicitation, the level of data in the Government's possession
and the corresponding requirements for data submission are
identified in the AID; or, if not specified in the AID, are as
follows: [buyer insert (a), (b), (c), or (d), as
applicable, if AID does not identify]. (If the level of data
in the Government's possession and Offeror requirements for
data submission are not identified in either the AID or in
this subparagraph (c)(3), then subparagraph (a) below
applies.)

(a) No data: This Agency has no data available for evaluating
the acceptability of alternate products offered. In addition
to the data required in subparagraph (c)(2) of this provision,
the Offeror must furnish drawings and other data covering the
design, materials, etc., of the exact product cited in the
AID, sufficient to establish that the Offeror's product is
equal to the product cited in the AID.

(b) Adequate proprietary (i.e., limited rights) data: This
Agency possesses adequate drawings and/or specifications for
the exact product as cited in the AID, but such data are
proprietary (i.e., limited rights) and shall be used only for
evaluation purposes. The Offeror must furnish the data
required in subparagraph (c)(2) of this provision, but is not

required to submit data on the exact product.

(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c) (2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.

(d) Adequate catalog data: This is a commercial off the shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c) (2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the AID. The Offeror is not required to submit data on the exact product.

(3) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated (i.e., if the solicitation number begins with SPE; or begins with SP0 and contains 'T' or 'U' in the ninth position of the procurement instrument identification number (PIIN)), the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. All offers of alternate product will be handled in accordance with DLAD 17.7501(b) (4).

(d) 'Superceding part number.'

(1) The Offeror must indicate that a 'superceding part number' is being offered if the offered item otherwise qualifies as an 'exact product,' except that the part number cited in the AID has been superceded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for 'alternate products.' (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an 'alternate product.')

(2) For solicitation numbers beginning with SPE, any data to be furnished with an offer of a 'superceding part number' should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

(e) 'Previously-approved product.'

(1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved.

CLIN NR(s) _____

(Vendor Fill-in)

have been previously furnished or evaluated and approved under contract/solicitation number _____

(Vendor Fill-in)

(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

(f) For all types of offers ('exact product,' 'alternate product,' 'superceding part number,' or 'previously-approved product'), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.

(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a 'superceding part number' or a 'previously-approved part number' to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for each required Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted and savings potentials are expected, as stipulated above. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215 1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227 7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation, and the Contracting Officer subsequently finds the evidence to be unacceptable, the award may be cancelled.

INSTRUCTIONS TO OFFERORS

Proposals will be evaluated in terms of both price and other evaluation factors in accordance with the evaluation criteria contained in this solicitation. Offerors should thoroughly read and understand the terms and conditions contained in the solicitation. Failure to provide any information requested in the solicitation, may render the offeror's proposal technically unacceptable and preclude it from any further consideration for contract award. Offerors should ensure that the information contained in their proposal is factual, accurate and complete. If the Government accepts the offer, it will contractually bind the successful offeror to the terms and conditions of the solicitations.

In addition to price, the Government will evaluate other business/technical factors in accordance with the evaluation criteria contained in the solicitation. These factors are deemed essential in order to determine the offer that best meets the Government's needs.

1. PRICE

Offerors shall submit a pricing proposal for the item(s) identified in the RFP's supplies or services with the offeror's insertions of its proposed prices for each contract line item on which the offeror is making a proposal.

2. PAST PERFORMANCE

Automated Best Value System (ABVS)

Each offeror will be assigned an ABVS score based upon its past performance.

Past Performance:

Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). ** Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery

Date (CDD).

Quality Complaints

- Product Nonconformance/Laboratory Test Failures
- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED SP0760-04-R-3821	PAGE 16B OF 16
	SECTION L	

with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the "BSM Supplier Information Resource Center" and the link is <http://www.dla.mil/j-6/bsm/sirc/>.

NOTE : The above 60 and 30 day offset periods are NOT grace periods.

ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

Other Past Performance Information:

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED SP0760-04-R-3821	PAGE 16C OF 16
	SECTION L	

The offeror may provide past performance information, as follows, for consideration along with the offeror's ABVS score, in evaluating past performance:

- (a) A list of contracts, commercial or government, performed within the past two years, limited to three (3) government and three (3) commercial contracts for the same or similar items. The offeror shall provide or include a point of contact (POC), address, telephone number, an average dollar amount of the contract per annum, the period of performance, and a sample listing of the items provided for under the commercial contracts. For any government contracts, provide the government agency, a (POC), telephone number, appropriate contract number, estimated dollar value of the contract, period of performance, and a sample listing of the items provided. The Government reserves the right to limit the number of references it decides to contact.
- (b) A listing of any "problems" or discrepancies (includes shortages, overages, damages, defects, or misshipments, etc.) experienced within the past year for the contracts or customers reported in reference to paragraph 1a. Include a brief description of how these problems were addressed and remedied.

The offeror shall describe the extent of its past performance in the past two years for the contracts reported in response to paragraph (a) above for:

- () Subcontracting with small, small disadvantaged, women-owned small business concerns
- () Subcontracting with JWOD entities
- () Participation in the DLA Mentoring Business Agreements Program

3. DELIVERY

See Section F of the solicitation for time, place and method of delivery or performance.

4. SURGE AND SUSTAINMENT

Information may be required from the offeror as specified in provision L17D04, Surge and Sustainment (S&S) Evaluation Factor.

5. SOCIOECONOMIC CONSIDERATIONS:

In addition to the socioeconomic proposal required under K15C01, DLAD 52.215-9002, the offeror may propose participation by Historically Black Colleges and Minority Institutions.

6. MENTORING BUSINESS AGREEMENTS PROGRAM -

The offeror shall describe, as part of its proposal, its current or proposed participation in the DLA Mentoring Business Agreements (MBA) Program. Participants:

Cite your criteria for selecting a firm with whom to mentor. In addition provide the following information with all submissions:

- a. Name, address, and office/plant location for offeror and potential small business concern participants.
- b. Point of contact, job title, and phone number of all personnel involved in the development and oversight of any agreement from both parties. The Government reserves the right to limit the number of references it decides to contact.
- c. The number of people employed by the small business concern.

- d. Plans which identify new business ventures rather than expansion of existing agreements are preferred.
- e. The mentoring plan shall specifically identify the areas of development assistance (i.e. management/technical) that will be provided. Provide a discussion of the areas chosen for mentoring.
- f. Describe the scope of the plan (i.e. whether the plan will be specifically related to the requirements contained in this solicitation or will the plan cover other government and commercial contracts).
- g. The offeror shall identify and describe the management control techniques that will be used to ensure compliance with any MBA requirement in any contract resulting from this solicitation. This should include the record keeping communication techniques and the methods to be used to control track performance.

Program Objectives:

Provide a chart indicating the milestones for program implementation.

Discuss and describe the measurements or yardsticks that will be utilized to determine if program objectives and goals have been met. Projections of successful program measurements should result in:

- (i) an increase in the dollar value of subcontracts awarded to small business and small disadvantaged business concerns under DOD contracts;
- (ii) an improvement in the level of small business/small disadvantage business participation in DOD, other Federal agencies, and commercial contracting opportunities

7. JWOD (Javits-Wagner-O-Day Entity Proposal) PROGRAM FACTORS

The offeror may provide a proposal as required under K15C02, DLAD 52.215-9004.

SECTION M

EVALUATION FACTOR FOR AWARD

General Basis for Award:

() **Multiple Awards:** The Government intends to make an award to the offeror that represents the best value to the Government. Additional awards for the same item or items may be made to offeror(s) representing the next best value(s). Award(s) will be made in the combination that will assure the Government needs in terms of delivery, quality, and price will be met during the life of the contract(s). However, the government will award no more than ____ contracts per NSN or CLIN groups as a result of the solicitation.

(X) **Single or Split Awards:** The award of each individual item of supply specified in this solicitation will be made to the responsible offeror whose offeror conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offerors.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

Evaluation Factors:

The Government will base the determination of best value on a comparative assessment of the offeror's prices, past performance, and other evaluation factors as identified in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors when combined are:

(X) approximately equal to price; or

() significantly less important than price. As the evaluated price becomes more equal, relative importance of all other evaluation factors become more significant.

() significantly more important than price. As other evaluation factors become more equal, the evaluated price becomes more important.

The final award decision may be made through a trade-off between price and the non-price factors.

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery
4. Surge and Sustainment
5. Socioeconomic Support
6. DLA Mentoring Business Program
7. JWOD Program

1. **PRICE:**

The offered price will be evaluated as adjusted by price related evaluation factors identified in this solicitation and, if indicated, the following:

SECTION M		

() **M15D04** – Weighted Average Price Evaluation Method (DSCC 52.215-9C19) (SEP 2000)

() **M16D01** – Evaluation of Offers for Indefinite Delivery Type Solicitations (DSCC 52.216-9C07) (MAY 2003)

() **Other**

The Government will also evaluate the reasonableness of offered prices.

2. PAST PERFORMANCE EVALUATION FACTORS:

Past performance includes but is not limited to, the offeror's record of conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior. The Government will use the past performance evaluation factors marked below:

- (X) Automated Best Value System (ABVS) (as defined below)
- (X) Socioeconomic Support
- (X) DLA Mentoring Business Program
- (X) JWOD

ABVS

The government will consider the offeror's ABVS score** and any other information provided relating to the offeror's performance (see Section L). The Government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

The Government may solicit information from an offeror's customers and business associates; federal, state, and local government agencies; and from other persons and organizations as deemed necessary. The Government reserves the right to limit the number of references it decides to query and to contact references other than those provided by the offeror.

An offeror's ABVS rating is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A vendor's overall score may also be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data. An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by the ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

** The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED SP0760-04-R-3821	PAGE 16G OF 16
SECTION M		

software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

****Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.**

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Supplier Information Center at <http://www.dla.mil/j-6/bsm/sirc/>. Additional information about ABVS and how to obtain your ABVS score can be found at <http://www.dscc.dla.mil/programs/abvm/>.

Socioeconomic Support, JWOD and DLA Mentoring Program

Performance will be considered on prior contracts for:

☐ Subcontracting with small, small disadvantaged, historically black colleges and universities, minority institutions and women-owned small concerns, including compliance with the requirements of FAR 52.219-8 - Utilization of Small Business Concerns, FAR 52.219-9 - Small Business Subcontracting Plan, and DFARS 252.219-7003 - Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (DoD Contracts)

☐ Use of JWOD entities

☐ MBA performance

3. PROPOSED DELIVERY: Offerors will be evaluated based on their offered delivery as compared to the government's required delivery. Preference may be given for offered deliveries that are shorter than the required delivery.

4. SURGE AND SUSTAINMENT

See Provision M17D03, Surge and Sustainment (S&S) Evaluation

5. SOCIOECONOMIC PROPOSAL

In addition to the information requested under provision K15C01 - DLAD 52.215-9002, which will be evaluated in accordance with provision M15C02 - DLAD 52.215-9003 as well as this provision, the extent of the proposed participation of historically black colleges and universities and minority institutions will be
